Product Discontinuation S1

Dear Sir or Madam,

NEW, LIFT Neue elektronische Wege Steuerungsbau GmbH hereby announces the discontinuation of the product "S1" as of 01.10.24.

From 01.10.24, the product "S1" will only be available as a spare part for a maximum period of 10 years.

In order to avoid unintentionally long reaction times in the event of a spare part being required, we advise you to stock an appropriate quantity or to use the alternative product "FST-3" with replacement kit. When using the FST-3 replacement kit, the time required for the replacement as well as the formalities of the documents such as circuit diagrams etc. and, if necessary, an inspection by a notified bodies must also be taken into account. As demand determines the stock of the S1, NEW LIFT reserves the right to decide when the "S1" will be replaced exclusively by the alternative product "FST-3" with replacement kit.

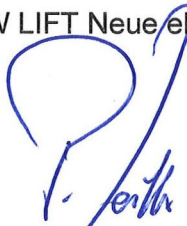

The "S1" product will not be adapted to future standards, directives etc.. However, this has no effect on lifts already on the market or on the replacement of the device in the case of spare parts.

As the manufacturer of the product, we therefore consider our duty to inform to be fulfilled. Please inform your customers / operators about the product discontinuation in order to prevent any unnecessary actions.

If you have any questions, please contact our service line on +49 8989 866 110.

Kind Regards,

NEW LIFT Neue elektronische Wege Steuerungsbau GmbH
