

DISCONTINUATION

HAND-HELD TERMINAL

Gräfelfing, 24.08.2020

Dear Ladies and Gentlemen ,

due to technical developments there were changes in our product portfolio.
The proven **HHT hand-held terminal** is replaced by the **LBG LON Bluetooth Gateway**.

In conjunction with a mobile device and the corresponding APP, the LBG is compatible with all FST-Controllers.

You can find more information about our LON-Bluetooth-Gateway on our website
https://www.newlift.de/files/pdfs/handbuecher/hb_LBG_2020-07_de.pdf.

With kind regards
NEW LIFT Neue elektronische Wege
