Betreff: Subject:	The successor product „F30 control cabinet“		

The successor product of the „F30 control cabinet“ is the result of diverse standard modifications. It has been specially adapted for MRL use.

The „F30 standing cabinet“ with NEW *LIFT* article number 57-03021 is replaced by the successor product „standing cabinet E/F/I 30“ with NEW *LIFT* article number 57-03051 (DIN right) / 52 (DIN left). The predecessor product is still available on request.

Specific characteristics of the successor product „standing cabinet E/F/I 30“:

- External dimensions: 2178 x 578 x 275mm (HxWxD) + socket 100x518x255 (HxWxD) height-adjustable with the leveling feet from 125 to 150mm.
- Fire load insulation 30 minutes → I30
- Colour similar to RAL 7035 (light grey)
- Fire resistance 30 minutes → F30
- Functional integrity 30 minutes → E30
- IP54
- 2-point locking push rod swivelling lever with exchangeable DIN profile semi-cylinder, KABA and ASSA in preparation.
- HPL (High Pressure Laminate) surface (outside)

Please pay attention to the changed dimensions in comparison to the predecessor

Predecessor product: H=2204 x W=517 x D=282 + socket 118-175mm adjustable
The successor product: H=2178 x W=578 x D=295 + socket 125-150mm adjustable
